HOW TO REACH MANSFIELD

Mansfield is thirty-six miles from Elmira, via the Erie Railroad. Students coming via the Northern Central Railroad, change at Elmira; those coming via the Pennsylvania Division of the New York Central, change at Tioga or Lawrenceville. Passengers from the East, by the Erie, change cars at Elmira; by the Lehigh Valley, change at Waverly, thence to Elmira and Mansfield by Erie; by the D., L. & W., change at Elmira, thence to Mansfield by the Erie. Those coming from the West, on the Erie or D., L. & W., change cars at Elmira.

All baggage should be distinctly marked with the name of the owner and "STATE NORMAL SCHOOL," to insure its being brought to the Normal buildings. Whenever baggage is to be taken to the station, it should be marked with the name and destination of the owner.

CONDITIONS OF ADMISSION, RULES OF EXAMINATIONS, ETC.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade, and city high schools as listed by the Department of Public Instruction, may be admitted to the third year of the course without examination, and be conditioned in the branches that have not been satisfactorily completed by them.

2. Properly certified graduates of approved Pennsylvania high schools of the **second grade** shall be admitted to the second year of the course without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the **third grade** shall be admitted to the first year of the course without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or the third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them.

5. At the completion of the third and fourth year, candidates are examined by a State Board of Examiners. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches,

and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said exmination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

11. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor, shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught succesfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

12. Residence for the last two years shall be required of all students, except in the case of graduates of Four Year Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

13. At the discretion of the Faculty, High School graduates may be excused from doing over any academic work in the four years satisfactorily done in the High School, provided that this be not applied to the review subjects of the Third and Fourth Years.

High School Graduates should send to the Normal School for application blanks for High School credits.

Special Courses Offered by This School

MUSIC

Introductory.

The general plan of this department is similar to that of the best conservatories, and it aims to fit its graduates for teaching or for public appearance.

Certificates

At the completion of the various courses certificates are granted by the school, showing the course pursued, and the work accomplished.

Entrance Requirements

Before devoting the greater part of their time to the study of Music, students must have completed a High School course of four years, or two years' work in a Normal School and must give evidence of possessing sufficient ability to make success probable.

Courses of Study

One year of Literature, two years of German and one year of French are required in each music course.

All students in the regular Music Courses are required to take theoretical subjects as follows :

Vocal Music, including Rudiments (one term.)
Ear Training and Sight Singing (throughout the course.)
Harmony (six terms.)
History of Music (three terms.)
Musical Form and Appreciation (three terms.)
Counterpoint (two terms.)

In the last year of each course, special attention is devoted to the Pedagogical side of the subject, with a view to graduating expert teachers of the various subjects.

Piano

The course in Piano covers four years. It requires one lesson a week during the first and second years, and two lessons a week during the third and fourth years.

Either Voice or an Orchestral Instrument must be studied in this course, one lesson a week, during the last three years of the course.

One year of Piano should precede work in the other courses.

Violin and Orchestral Instrument

The course in Violin or other Orchestral Instrument requires two lessons a week upon the chosen instrument and one lesson a week in Piano for three years.

All students in Piano, Violin or other Orchestral Instrument are given an abundance of ensemble work under careful coaching.

An excellent Orchestra of symphonic size has been organized, affording students of orchestral instruments opportunity for advanced study.

Voice

The course in Voice requires three years, two lessons a week, and the study of Piano is required throughout the course, one lesson a week.

Students in Voice are given careful training in choir and chorus work.

Organ

The work in this course covers two years, and is open only to those who have completed two years of Piano.

The aim of the course is to give training sufficient for the average church organist, and to form a solid groundwork for later advanced study.

The school has an excellent three manual electric organ, built by the Austin Organ Co., of Hartford. Each detail of this organ is complete, modern and of unusual excellence.

Special Students

Those who do not desire to take one of the regular courses as outlined above, may enroll at any time as special students and take such work as they desire. This work, when of sufficient extent, will be credited towards graduation from any of the above courses.

Normal Course in Public School Music.

A course of three years is offered. It is comprehensive and is intended for those who wish to become Supervisors of Music.

ART

Two Courses are offered in Normal Art, as follows:

I A course of two years open to graduates of a four year high school course, or to the students who have completed two years' work in a normal school. This course is of broad scope and is intended for those who wish to become Supervisors of Drawing.

II A one year course open only to graduates of normal schools. This course is intended for those who wish to become special teachers of Drawing in Public Schools.

The Normal Art Courses are designed to give the student a knowledge of art, and skill in drawing, painting and the Manual Arts; and at the same time to train the student for the position of teacher of drawing in the elementary and secondary schools, or as supervisor of drawing in the public schools.

Course of Study:

I Still Life—Charcoal and pencil.

II Drawing from Casts.

III Painting—Water colors, instruction in drawing, painting, and composition of still life, flowers, landscapes, etc.

IV Freehand perspective—Drawing of objects, exteriors and interiors, street scenes and plant forms.

V Blackboard Drawing.

VI Design and Applied Design—Making of designs for plaids, tiles, book covers, stencils, cut and tooled leather, baskets, wood-block, printing, etc., suitable for school work.

VII Color—Attention is given to color in connection with design and composition, and to the development of original and harmonious color schemes.

VIII Applied Arts—Instruction is given in elementary manual training, consisting of card board construction, paper cutting, basketry, weaving, clay modeling, and elementary book binding.

IX Mechanical Drawing—This course is arranged with reference to the needs of teachers.

X Histories—Ornament, lectures.

XI History of Art—Lectures on the History of Architecture, Sculpture and Painting. Students are required to take notes and use a text book.

XII Theory and Practice of Teaching Drawing—This course includes practical work, practice teaching, observation and discussions, the planning of lessons and courses.

Normal Courses in Art—Two Year Course.

KINDERGARTEN

The completion and occupancy of the new $50,000 Model School makes possibie the establishment of a regular and thorough normal course in the Kindergarten. Beginning with September, 1914, there will, therefore, be offered to qualified applicants an opportunity to receive instruction and practice in this department under competent teachers and critics.

This catalog goes to press before all details are ready for announcement. A note to the Principal of the Normal School will bring information as to course and expenses.

LIBRARY METHODS.

A comprehensive course in Library Methods is offered to qualified students who may desire to pursue it in detail or in connection with the Regular Normal Course. (Write to Principal in regard to details.)

RURAL SCHOOLS.

A series of lectures will be given by County Superintendents and rural school authorities on problems of the Rural Schools. These lectures will form a course that will aim to prepare prospective teachers to meet conditions such as exist in rural districts. They will be open to all seniors and special students taking the teachers' classes.

BUILDINGS AND GROUNDS

The Normal School buildings present a noble and imposing aspect. The school grounds have an area of sixteen acres. The lawns about the buildings are beautifully laid out and covered with a great variety of forest trees. The sports of the school are carried on in Smythe Park, a beautiful enclosure in Mansfield of about thirty acres, containing a ball field that is unexcelled, and with seating accommodations for five thousand persons.

South Hall

This is a brick structure, one hundred fifty feet in length by fifty feet in width. In this building are the men's dormitories, the circulating library, reading room and reference library, recitation rooms, and the text-book library. This building, formerly the old seminary, was enlarged and remodeled in 1889. One hundred and fifty feet north of South Hall, stands the

North Hall

This building, we claim, is one of the finest school buildings in the country. It is two hundred seventy feet long by one hundred feet wide, and five stories high. It contains the Principal's office, dormitories for the women, reception rooms, suite of rooms for the Art and Music departments, an elegant dining room large enough to seat five hundred, passenger and freight elevators, the kitchen, bakery, etc. Two stories of an ell, completely removed from the other rooms, are set apart as an infirmary. They are furnished with every appliance for the sick. The dormitories on each floor of both buildings are supplied with bath tubs, and everything needed for health and comfort. All the buildings are heated by steam, lighted by electricity, and supplied with fire escapes of the best construction. Midway between the North and South buildings is

Alumni Hall

This is a brick building, fifty-four by one hundred seventeen feet, three stories high. It contains the recitation rooms and a concert hall which occupies one entire story. In this hall is located one of the

finest pipe organs to be found in this section of country. This building was completed in 1886. In the rear of the South Hall stands the

Gymnasium

This is a fine structure: it is a frame building, fifty by one hundred thirty feet; it contains a large drill hall, fifty by one hundred feet, two spacious rooms used for dressing rooms, a room equipped with shower-baths and lockers, and one class room. The drill hall is well furnished with apparatus. This building was erected in 1888.

Model School

To the east of North Hall there has just been completed a superior structure to be devoted to the Model School. The building is one hundred and twenty feet in length by eighty-two feet in width, two stories and a basement. It contains twelve regular class rooms, a commodious assembly hall, office, and other rooms for the special help of retarded children. In the basement are separate play rooms for boys and girls, heating and ventilating appliances, toilets, cloak rooms, &c. It is a fire-proof building, erected of re-enforced concrete, with a brick facing.

GENERAL INFORMATION

The Aim

The distinctive aim of a Normal School is the preparation of the teachers for service in the public schools. The methods of teaching and government which grow naturally out of this aim, are best suited to the education of all who would be prepared for life.

Since the teacher must be an **independent learner**, our classroom work is designed to foster this quality. A subject is not considered learned when a student is able to answer any number of leading questions of fact; the evidence of accomplishment is seen rather in his ability to treat the subject without the aid of a teacher's questions — to grasp its philosophy, and to become so thoroughly the master of it that he can rationally question another.

Furthermore, the really successful teacher must be a person of **unsullied character** and of a strongly formed **habit of self-control.** Accordingly, our disciplinary aim is to develop these qualities. Obedience to regulations, systematic co-operation in all requirements, and interested endeavor in all school duties, are expected of every student.

Parents are urged not to look upon this as a reformatory, and not to send us vicious or immoral persons to be educated. All that lies in the power of the faculty will be done for those who strive to help themselves. Others will be advised to withdraw. The time and energy of an earnest and superior faculty is too largely expended in teaching well and in helping faithful people, to justify any other course.

The Plan

The especial mental equipment of a teacher (aside from character and a forceful personality), consists of (1)—Knowledge of the subject matter to be taught; (2)—Knowledge of the laws of mental action; (3)—Knowledge of those methods of imparting instruction and of moving the will which are in most complete harmony with the laws of mental action. This last knowledge may be either theoretical or practical; with the artistic teacher it is both.

In this school the student receives his knowledge of subject matter in his daily study and recitations. He acquires an elementary knowledge of the laws of mental action by the study of Psychology. In order to supply him with theoretical knowledge of the best method of imparting instruction and of moving the will, we give regular instruction in Methods of Teaching, School Economy and History of Education. Finally, to furnish him, as far as possible, with the needed practical skill, we introduce the Senior to the work of actual teaching in the Model School.

Free Tuition

To each student seventeen years of age or over, who, upon registration, signs an agreement to teach in the Common Schools of this state two full annual terms, *tuition in the Regular Normal Department is free.* (This free tuition is always conditioned upon succeeding Legislatures continuing to make appropriation for such purposes.)

Teachers who enter for the Spring Term as soon as their schools are closed, will be charged, according to the above term rates, for time they are in actual attendance, *provided they remain to the end of the term.*

In all private work students will be charged for lessons that they lose through temporary absence, excepting that in absence due to illness, they will be given an opportunity to make up lost lessons, whenever the teacher's time will permit.

There is a small charge for materials used in the Chemical Laboratory, Physical Laboratory, Manual Training, Domestic Science and Mechanical Drawing.

Deductions

Deductions will be made to students in the regular Normal work, who are absent from school two consecutive weeks or more on account of sickness or for other satisfactory reasons.

No deductions will be made to students entering within the first two weeks, or leaving within the last two weeks of a term.

The Enrollment Fee is not deducted even though a student leaves during the term.

Students leaving school before the end of the term must obtain written permission from the Principal, and full settlement of expenses incurred be made at the office. Otherwise, charges will be made for the entire term.

Payments

TO WHOM MADE—All checks should be drawn to the order of the State Normal School, and payment be made to the Principal.

BOARDING STUDENTS—Those who receive State Aid are required to pay $40 the first day of each term; those who do not receive State Aid $50 the first day of the term. The remaining amount for the Fall Term is payable Oct. 22, 1914; for the Winter Term, Feb. 9, 1915, and for the Spring Term, May 2, 1915.

(The Enrollment Fee must be paid each term before a student will be allowed to enroll for any of the work.)

DAY STUDENTS—Those who do not receive State Aid are required to pay the term's tuition in the regular Normal Department the first day of the term.

STUDENTS IN SPECIAL DEPARTMENTS—Tuition for the term, in the special department, strictly in advance; and a receipt for the same must be presented to the teacher before beginning the lessons.

OF SPECIAL INTEREST

Education means more than that which is received from text-books or imparted in the class room. There are certain cultural elements which will be found in every wisely educated person—elements that cannot easily be described, but the absence of which in anyone makes him a marked person.

ETIQUETTE—Great care is taken in this school to supply these features of true education. Specific addresses are given from time to time, by members of the faculty, upon the various phases of "good form." These teachings are insisted upon in the lives of members of the school.

SOCIAL LIFE - As this is a co-educational institution, frequent occasions are made for the natural and proper association of the sexes—always under the chaperonage of members of the faculty.

Several organizations add to these cultural elements in the student's life. These are re-enforced by many literary, musical and scientific gatherings to which pupils are urged to give their time and effort.

LIBRARY—As an adjunct to all this, and also an essential aid to class work, the school is supplied with a superior circulating and reference library, selected by the librarian and the teachers of the several departments. More than seven hundred and fifty volumes are added yearly, and it is catalogued after the most modern and approved plan. It is housed in a commodious and well-lighted room, and in the library is to be found a list of the leading magazines and the daily and weekly papers.

LIBRARY STUDY—About one hundred students were this year given a course in library work, thus fitting them the better to use and enjoy libraries and to direct the reading of their pupils. An especial phase of the work was the study of Juvenile Literature,

ENTERTAINMENT COURSE—We maintain a superior course of lectures and entertainments each year. These lectures are open to all students of the school, *the enrollment fee paying for the course ticket.* For the year 1914-15, the following course is planned:

John Merritte Driver, Ph. D., LL. D.
Albert Edward Wiggam.
Chancellor Geo. H. Bradford.
Montaville Flowers.
Concert by the Faculty of Music Department.

ENVIRONMENT—But choice cultural elements cannot be wrought into one's habit of life unless his environment lends constant support to that end. Our pupils are brought to a dining-room unexcelled by any school whether we consider the quality of what is furnished or the attractiveness of the room in which it is enjoyed; the rooms of our students are the most commodious and the best furnished to be found in any school of our class; while the corridors and public rooms are adorned with statuary and pictures which reflect the choicest that art has yet produced.

There are no saloons within nine miles of the Mansfield State Normal School, and such are prohibited by law within two miles.

RELIGIOUS AIDS—The religious element in our natures receives here the attention which its importance merits. Without a touch of sectarianism, but with constant regard for those of all faiths, the very life of the school is made to reveal the spirit of true religion. Bible study, stated meetings for devotion, missionary study, and religious addresses—all under the auspices of the Y. M. C. A., and Y. W. C. A.,—although purely voluntary, are always encouraged, and are largely attended. Sunday morning church attendance is officially required, as is also the six o'clock Sunday vesper service.

ATHLETICS—Athletics comes in also for its due share of attention. A committee of Trustees and Teachers controls this phase of the school's activities.

The games of Foot Ball, Basket Ball, Base Ball and Tennis are now open to all members of the school, *the enrollment fee paying for the ticket.*

PHYSICAL CULTURE—Aside from the above named sports of the school, especial attention is given to Physical Culture. This is for the health, strength and grace of the individual, as well as for its value to him as a teacher. In this work pupils are required to wear clothing suitable for such exercises—divided skirt and loose blouse for the ladies; a negligee shirt for the men, and rubber-soled shoes for all. Students are advised not to get suits until they reach Mansfield, so that all may follow an approved pattern. They can be procured here at very slight cost. All regular students of the school, regardless of the course they are pursuing, are required to take work in the gymnasium, unless they are physically incapacitated, in which case they are excused upon presentation of a physician's certificate.

STUDENTS' ROOMS—The educational influence of our students' rooms is not overlooked. They are commodious and are tastefully

decorated and furnished. Two students are expected to occupy a room, except by previous arrangement with the Principal and the payment of an excess fee.

Ladies' rooms are furnished with carpet, rockers, straight chairs, tables, bed-room set complete, pillows and one comfortable, mirror on dressing case.

Gentlemen's rooms are furnished with arm chairs, straight chairs, tables, wash-stand, dressing case with mirror, bed, pillows and one comfortable.

All rooms are heated by steam and lighted by electricity.

Students furnish napkins, towels, pillow-slips, sheets and one comfortable.

BAGGAGE—For two days at the opening and two days at the close of each term, students' baggage is carried to and from the railway station free of charge.

HONORS—Nominations for public honors made by any organization of the school, must be submitted to the faculty for approval before the person can be elected.

Each class is divided into three groups, viz: Honor, Credit, Graduation.

The Honor group comprises those whose average, for the year the honor is given, is 90 per cent. or over; the Credit group those whose average is from 85 per cent. to 90 per cent. Average for graduation is 75 per cent.

Announcement of the standing of the first two groups in each class will be made at Commencement.

FREE SERVICE TO SCHOOL BOARD AND TEACHERS—School Boards and Superintendents desiring the services of good teachers are requested to make early application to the Principal of the Normal School. Students will be recommended entirely upon the record which they have maintained while in this school, or through personal knowledge. Graduates of Mansfield Normal School are asked to keep in touch with the Principal of the Normal School in order that they might be recommended for better positions demanding experience.
